I certify that I understand that the form 1040 and balance of taxes are due on April 17th, 2018 for the 2017 tax year. By filing an extension, the form 1040 can be filed timely as late as October 15th, 2018. However, all taxes are still due on April 17th, 2018. Interest and penalties can be charged by the tax agency on tax balances paid after April 17th, 2018. If estimated taxes are owed, those taxes were due by January 15th, 2018. I understand I only owe the correct amount of taxes due and that any amount paid with the extension is an estimate. The correct amount is known only with a correctly prepared form 1040.
